

## SWITCHWORDS - "Thoughts become things"

Every word contains the essence of a particular life experience or desired result. "Switchwords" are one word affirmations. Using them is like turning on an electric lamp with a switch. The desired result invariably appears. They can be used in a variety of creative ways to positively shape our reality. Declare, chant, affirm, sing, say them just once, or repeat them mantra style several times and watch how effortlessly reality is shaped by your intentions. These switchwords were discovered by James T. Mangan (1896-1970) through his research over a period of 50 years. May you use this tremendously useful and powerful tool for your highest benefit. May you realize that you are not merely a part of this universe...you are a leading edge participant in this unfolding universe!

Be happy!
